A word from the head.....

Happy New Year !!!!

I hope that you all had a great Christmas Break and that 2018 has started positively for you all.

The children all appear to be well rested and have settled quickly back into the routines for school.

You should have now received a topic overview and letter from your child's teacher sharing with you the topic for the term and asking for your support with homework, reading, spelling and tables. Your support in helping your child with these tasks is greatly appreciated and does make a difference to the amount of progress that the children make. After February half term we will be holding Parent/Teacher meetings where you will have the opportunity to discuss your child's progress. As always, if you have particular concerns relating to your child's learning that need addressing before the parents evening please arrange to meet your child's class teacher at your earliest convenience.

I have spent some time this week showing prospective parents around the school for the reception intake in September 2018. As always, I felt very proud of our school as I showed the parents around. The good manners and impeccable behaviour really shone out and the children were obviously enjoying their learning and the school had an amazing 'buzz' of excitement about it. I saw children explore Shackleton's journey to the South Pole, astronauts in a black hole (well children in The Black Hole Planetarium). There is even a giant beanstalk growing in Year 2 and the Giant appears to have come crashing through the ceiling in Year 1.

I know that there are lots of exciting things to come this term and hope the children continue to remain as engaged as they currently are.

I am looking forward to another great year at Glenfall and in seeing the school continue to go from strength to strength.

Have a great weekend !

Social Media Information Evening 8th February 2018, 7pm – 9pm.

Do you know how your children are using social media?

Are you aware of the impact Social Media can have on the developing brain?

I am delighted to invite all parents at the school to come along to an information evening on the impact Social Media can have on the developing brain. The evening will also give you an insight into how children are using Social Media and how you can protect them and create a safer Social Media experience.

This is a 2 hour event that will include presentations from two speakers, a short film depicting a teenager's personal experience as well as an opportunity for parents to share their concerns. I listened to this presentation at a local head teachers meeting and can fully recommend the event to you. I was so impressed by the presentation and the information that it gave me I felt compelled to book the two speakers to provide this opportunity for parents at Glenfall.

The Speakers...

Madeleine Stanimeros

Parenting Consultant

Madeleine shares effective tools to support parents in a digital age. This presentation has examples and strategies to reassure parents that they can help their children to manage their social media exposure without losing relationship.

Caroline Kelly

School Counsellor

Caroline gives a simple understanding of adolescent brain development and how social media is having a worrying impact on their mental health. The presentation is supported by developing research and her personal experience of working with young people.
