

Year 2 Topic Homework: Autumn Term 1 2026

Toy Story

Please look at the suggested homework activities in the grid below and choose one to complete if you would like to.

Toys throughout the ages	Research a toy that children would have played with many years ago. You could find a picture of it and label it or draw a picture. Consider the materials the toy is made from, who might have liked to play with it and you could even compare it to toys which you like to play with now.
Write your own Toy Story	Using some of your favourite toys, write a story about the adventures they have when they come to life. You could write it as a full story, as a comic strip or a story board.
Design a new toy	Design a new toy. Think about who the toy will be for and what makes it suitable and fun for them. What materials will your toy be made from?
Material hunt	Go on a material hunt around your house. Can you find objects which are made from different materials? Can you find any objects made from more than one material? You could record your findings in a table.

When it is completed, please bring it into school so we can celebrate your hard work.

Thank you,

Mrs Woodman & Mrs Hatfield
